Greetings to the Church at Ellore,

Well, it's that time of year again when most of us find ourselves drastically reordering our day to day schedules. The summer is over, school has started and we have to adjust to new routines. Even in the church, we start our new year calendar by rotating deacons, changing committees and re-vamping our Sunday School. Change can be difficult, but did you know that God intentionally created change. He created this world and He made everything in it to change. The rocks and trees are constantly changing, as well as the birds ("sparrows) and "lilies" about which Jesus spoke. The only thing in this Universe that does not change is God Himself and that is by design. He is the same today as He was yesterday and as He will be tomorrow. He is our only "Constant" and what a blessing that we can depend on something that will not change. All mankind is searching for that "Constant" but most do not know where to look...but we do and Jesus told us that if "we lift Him up, He will draw all men and women to Himself."

Beginning a new calendar year is a wonderful time for us to renew (change and grow) spiritually and to help someone who does not know Jesus to learn about the only "Constant" in their lives that can bring true happiness.

Blessings,
Charles
